Ensuring Clients, Consultants, Contractors, Legal Advisers, etc. have confidence in working with FIDIC Contracts documents which are the international language in the construction industry

OVERVIEW

FIDIC Conditions of Contract are increasingly used by the construction Industry throughout the world. The two courses have been designed to offer a complete and effective understanding and application of the FIDIC Conditions of Contract and the management of contract claims. While Module 1 course provides a practical guide to understanding and use of the 1999 FIDIC Conditions of Contract, Module 2 provides practical advice in the management of claims, understanding, defending and achieving the resolution of disputes and the working of Disputes Adjudication Boards and Arbitration. The courses will also serve both as a refresher and update for those who attended them before.
